¹Check appropriate boxes that best describe type of isolated, non-navigable, intra-state water present and best estimate for size of non-jurisdictional aquatic resource area.

Migratory Bird Rule Factors ¹	If Known		If Unknown Use Best Professional Judgment		
	Yes	No	Predicted to Occur	Not Expected to Occur	Not Able to Make Determination
Is or would be used as habitat for birds protected by Migratory Bird Treaties?					X
Is or would be used as habitat by other migratory birds that cross state lines?			X		
Is or would be used as habitat for endangered species?					X
Is used to irrigate crops sold in interstate commerce?				X	

¹Check appropriate boxes that best describe potential for applicability of the Migratory Bird Rule to apply to onsite, non-jurisdictional, isolated, non-navigable, intra-state aquatic resource area.

ADDITIONAL INFORMATION SUPPORTING njd (e.g., paragraph 1 site conditions; paragraphs 2-3 rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 site information on waters of the U.S. occurring onsite): It has been determined that there are 18 distinct wetland areas located on the 120 acre parcel. Approximately 20 acres of wetlands at 4 locations are adjacent to a surface water tributary system to a navigable water of the US. There are approximately 4.46 acres of wetlands determined to be isolated.

The wetlands were identified within a wetland delineation report submitted to the Corps for verification. Discussions within the report as well as information contained on the data sheets indicate that the isolated wetland areas are not contiguous to other wetland areas associated with surface water tributary systems. In addition, there is no evidence of use of the wetlands for fish or shellfish production or any nexus to interstate commerce.
